

Paperless Construction Management On Your Fingertips

One Mobile App for Projects | Materials | Payments | Quality | Attendance | HRMS | CRM

buildcontrol is a cloud-based construction management app that connects your site and office in real time - on Android, iOS and Web - with secure cloud storage, multi-project control and complete data privacy.

IDEAL FOR

Builders

Infrastructure Contractors

Architects & Interior Designers

PMC Firms

Project Management

Complete site-to-office control of daily work, tasks, equipment and communication.

- Daily Work reports - location, material & photos
- Daily Worksheet - day-wise site work log
- Task Management with priorities & deadlines
- Project Drawings (PDF / JPEG / DWG)
- Testing Reports - cube, steel, aggregate
- Equipment tracking - rented & company-owned
- Internal Chat for team communication
- Work Reports & Quotations
- Multi-Organization support
- Real-time Notifications
- Site Photo Gallery

Inventory Management

End-to-end material control - from purchase request to central warehouse.

- Live site stock with real-time updates
- Purchase Request with approval flow
- Purchase Order - create, download, share
- Material Received with challan photos
- Site-to-site Material Transfer
- Automatic Stock Register
- Material Request & Delivery tracking
- Central Warehouse / Store control

Billing & Payment Management

Complete financial visibility - petty cash to party ledgers.

- Petty Cash with category-wise analysis
- Contractor payment schedules & dues
- Supplier payment tracking
- Payment Reports & histories
- Party Management - all vendor records
- Other Expenses with bills attached

Quality Control

Keep every job to the highest standard.

- Issue & Snag tracking in real time
- Instant notifications on every issue
- Inspection Requests with approvals
- Inspection & quality records
- Photo evidence via site Gallery

Labour / Vendor Attendance

Manage your site workforce end to end.

- Daily labour attendance from site
- Shift-wise records & site transfers
- Vendor labour tracked separately
- Attendance-linked payouts
- Workforce productivity reports

HRMS (New)

A simple, mobile-first HRMS for your office and site teams - attendance, leave and salary in one place.

- Attendance: mobile IN/OUT punch, no biometric
- Leave balance, history & on-leave view
- Daily status, work hours & monthly summary
- Salary: define monthly salary per member
- Leave: apply from app - type, dates & reason
- Auto salary calculation from attendance (LOP)
- One-tap approval with instant alerts
- Payment records, status & reports

Built-in Geo-Fencing & Geo-Tagging

Geo-Fencing: punch IN / OUT only inside the defined site or office boundary - no proxy attendance.

Geo-Tagging: every punch is stamped with exact GPS location and time for complete confidence.

CRM Management

Convert site visitors into bookings.

- Site Inquiry records & visiting cards
- Booking Charts - sold / available / hold
- Booking details, photos & brokers
- Inquiry & Booking reports (Excel/PDF)
